Full Time Industrial Engineer - Walt Disney World Resort

Want to be part of a world-class organization? Walt Disney Parks and Resorts are seeking talented, energetic, and highly motivated Industrial Engineers to join their team. The Industrial Engineering teams at Disneyland® Resort and Walt Disney World® Resort provide analytical decision-making support to executive management and operations. They handle multiple project assignments on an ongoing basis that contribute to improvements in Guest Satisfaction, Cast Excellence and/or operational/financial results.

RESPONSIBILITIES:

• Conduct Industrial Engineering analysis projects, particularly in operational planning support, workload planning and forecasting, capacity utilization, and productivity/process improvements
• Ensure that the appropriate methodology, measurements, tools and quantitative techniques (e.g. data collection, computer simulation, statistics, process flow analysis, etc.) are applied in projects
• Lead and participate in team efforts and work on projects which require interfacing with all levels of Cast and management

REQUIRED QUALIFICATIONS:

• Bachelor’s degree in Industrial Engineering, Engineering, or equivalent (minimum 3.0 GPA)
• Demonstrated computer proficiency within a Windows environment and with pertinent software such as Excel (advanced level), Access, MS PowerPoint, etc.
• Demonstrated strong analytical and project management skills
• Demonstrated strong written and verbal communication skills to technical and non-technical audiences
• Ability and passion for product and for providing high value project work
• Demonstrated initiative and drive
• Demonstrated ability to apply Industrial Engineering skills, tools and methodologies to project work, inclusive but not limited to capacity/demand analysis, statistical analysis, and OR techniques (e.g., linear programming, simulation, queuing logic, etc.)

DESIRED QUALIFICATIONS:

• Industrial Engineering work experience, including co-ops/internship
• Master’s and/or Ph.D. degree in Industrial Engineering, Engineering, or equivalent (minimum 3.0 GPA)
• Demonstrated strong partnering skills
• Proven strategic thinking skills

Proof of eligibility for full-time employment within the United States on a permanent basis is required.

• E-mail resume and cover letter to wdpr.industrial.engineering@disney.com
• Submit an online application at www.disneycareers.com; Requisition ID #128863BR
